UL 705 Compliance

Meets the UL 705 Standard to ensure it adheres to rigorous safety and performance requirements and has undergone testing and evaluation.

Highly Durable

The heavy-duty guards feature a gray polyester coating designed to resist corrosion. This makes them suitable for use in a range of environments.

OSHA-compliant

Comes with an OSHA (Occupational Safety & Health Administration) compliant guard to ensure compliance with safety regulations.

Speed Regulation

All models in the SHE Series are speed-controllable (except 2SHE 30C1 and 2SHE 36D1).
