

ADC Shut-off dampers

Shut-off Damper for Circular Ducts

- Motorized Operation
- Spring Return
- Tight Seal
- Simple Installation

[Find more details in our online catalogue](#)

Enhanced Airflow Control

The shut-off damper's motorized operation facilitates precise control over airflow within the duct system, enabling efficient ventilation and HVAC performance.

Energy Efficiency

The damper shuts off airflow when not needed, helping to conserve energy and reducing costs by preventing unnecessary heating or cooling.
