Energy Efficiency

Facilitates energy savings by recovering energy from the building's exhaust air and using it to temper the incoming outdoor air.

Versatile Applications

Designed to serve a wide range of commercial and institutional spaces, where balanced ventilation is essential.

Year-round performance

Engineered to operate efficiently in warm or humid and cold climates, making it a reliable ventilation solution for balanced ventilation.

Defrost Mode

Equipped with a supply fan shutdown defrost to prevent the energy recovery core from freezing to maximize performance in cold climates.

Certifications

CSA Mark

AHRI Certified
