Enhanced Versatility

The VHR Series offers versatile installation options, making these appliances suitable for a wide range of applications in both single- and multi-family homes.

Air Boost Mode

The exclusive TurboTouch feature of the FLEX® 100H enables it to deliver up to 50% more exhaust capacity, enhancing efficiency and performance.

Energy Efficiency

The aluminum core of the appliance provides superior heat transfer capability while enhancing overall energy efficiency and cost-effectiveness.

Integrated Airflow Measurement

Integrated airflow measurement system allows for quick and accurate airflow reads during installation.

Certifications

CSA Mark

This product has been rigorously tested to applicable standards written or administered by the ANSI, UL, CSA, NSF, and other North American and global organisations.

HVI Certified

HVI certification is a voluntary third-party certification programme to verify performance of residential ventilation products, in accordance with HVI/ANSI consensus test standards. Visit the HVI-Certified Products Directory to learn more
