

## Residential pleated filters Replacement filters

### MERV8, MERV13 and HEPA pleated replacement filters for residential fresh air appliances

- Enhanced Filtration
- Improved Air Quality
- Quick Replacement

To better air quality, upgrade your existing filter to the one with a more efficient MERV class. Note that the upgrade will reduce the airflow capability of your appliance.

#### MERV 8 Rated Filters

The replacement filter kit features 2 pleated filters with a MERV8 rating. The filters will collect mold spores, pollen, cement dust, carpet fibers, debris, lint, and insects. With normal usage, it is recommended that you replace the filter every 3 months.

#### MERV 13 Rated Filters

The replacement filter kit features 2 pleated air filters with a MERV13 rating. The filters will collect mold spores, pollen, pet dander, smog, bacteria, cement dust, carpet fibers, debris, and lint. With normal usage, it is recommended you replace the filters every 2 months.

#### HEPA Rated Filter

The replacement filter kit features 2 pleated air filters with a HEPA rating. Suitable for HERO 150H Fresh Air Appliances. These filters will collect up to 99.97% particles as small as 0.3 microns in size such as carbon dust, bacteria, legionella, combustion smoke, milled flour, welding fumes, pollen, bacteria, pet dander, and mold spores. With normal usage, it is recommended to replace the filter every 12 months.
