Enhanced Versatility

The VHR Series offers versatile installation options, making these appliances suitable for a wide range of applications in both single- and multi-family homes.

Air Boost Mode

The exclusive TurboTouch feature of the FLEX® 100H enables it to deliver up to 50% more exhaust capacity, enhancing efficiency and performance.

Energy Efficiency

The aluminum core of the appliance provides superior heat transfer capability while enhancing overall energy efficiency and cost-effectiveness.

Integrated Airflow Measurement

Integrated airflow measurement system allows for quick and accurate airflow reads during installation.
