

ECO-touch™

Programmable Touch Screen Wall Control

Why the ECO-Touch?

- User-friendly
- Sleek design
- Night and Day mode
- Peace of mind ECO-mode

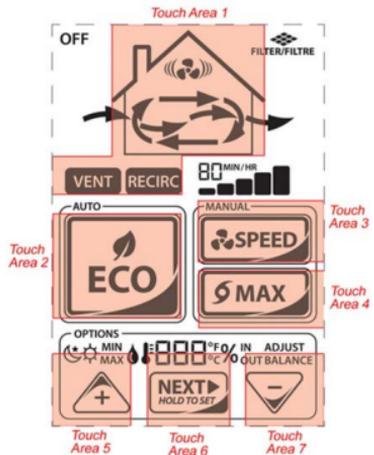

User-friendly

- We made it easy for not only the contractor but also the homeowners
- Buttons clearly shows when it is activated

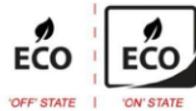

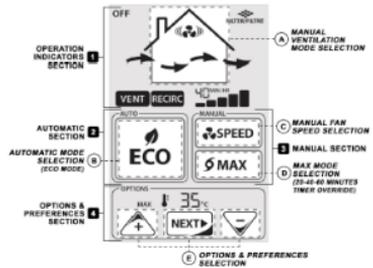

Sleek Design

- Touchscreen
- 7 Touch Pads
- Backlight activated with a simple touch
- Backlight stays on for 5 seconds

Sleek Design

- Touch Pads are grouped in 3 major categories – AUTO – MANUAL & OPTIONS
- Button clearly shows when it is activated

Night and Day Mode

- Personal programming
- You decide of the SPEED and MODE during the Night and Day
- Light sensors
- 24 hour period

Night and Day Mode

- Remains in Day or Night for 8 hours minimum - can only change after 8 hours
- Does not require sunlight

IMPORTANT: The controller will not automatically change if the ECO mode is not selected. ECO Mode (Automatic Mode) needs to be selected for automatic switch between Night & Day preferences.

Peace of Mind ECO-Mode

- Relative humidity range setting
- Automatically adjust indoor humidity depending on outdoor temperature
- One touch – no worries

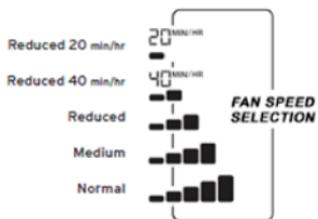

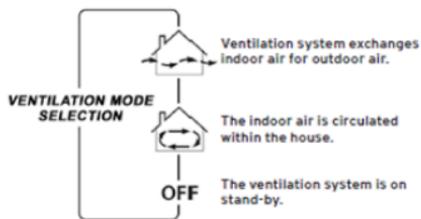

More Benefits

MANUAL Mode

- Manual Mode is activated by pressing either the HOUSE or SPEED button
- The HOUSE button selects the operating mode of the HRV/ERV – VENT – RECIRC* – STANDBY/OFF
 - RECIRC* is only available when the HRV/ERV has a recirculation damper. Eco-Touch automatically detects on power-up
- The SPEED button selects the HRV ERV predefined speeds.
- 3 continuous speeds (Low-Med-High) and 2 intermittent speeds (Low 40min/hr & Low 20min/hr)

More Benefits

What's in the box?
