

FKD Series

Inline Centrifugal Fans

Description

A mixed flow centrifugal type exhaust/supply fan for moderate size ventilation applications specifically designed to bridge the transition from centrifugal to axial. FKD Series fans offer substantially quieter performance and are easier to install than axial arrangements. Fans can be mounted at any angle in any point along the duct work and straight-through air flow design allows easy installation. Fans can be easily removed from duct work for service. Fan motors are capable of operating in air stream temperatures of 140° F. Motor bearings are a permanently sealed, self lubricating ball type. All fans are 100% speed controllable through a decrease in the voltage by using a solid state or transformer type control. All FKD Series fans are backed by Fantech's Five Year Warranty.

Guide Specifications for Model FKD Inline Duct Fans

Supply, exhaust or return air inline fans shall be of the centrifugal, direct driven type.

Construction

Housing

- Fan housing shall be constructed of heavy gauge galvanized sheet metal
- Fan shall be supplied with externally mounted electrical terminal box with pre-wired terminal strip connections

Motor

- Motorized impeller shall be an enclosed external rotor type. Single phase motors (FKD8XL – FKD18) shall be 120 or 230V permanent split capacitor type
- Three phase motors (FKD18XL, FKD20) shall be dual wound for 230V or 440/460V
- All motors shall be a permanently sealed self lubricating ball bearing type
- Single phase motors shall be equipped with automatic reset thermal overload protection
- Three phase motors shall be equipped with internal automatic reset thermal overload switch for interlock with contactor
- Motors shall be acceptable for continuous duty
- Sufficient service factor shall be provided to ensure long maintenance free operation over maximum load conditions

Wheel

- Fan wheel shall be of the mixed flow centrifugal type with a well designed inlet venturi for maximum performance
- Motorized impeller shall be both statically and dynamically balanced as one integral unit to provide for vibration free performance
- Impellers for models FKD 12XL through FKD18 shall be molded of high impact polypropylene
- Impeller for FKD 8XL through FKD 12, FKD 18XL and FKD 20 shall be constructed of aluminum

Performance

- Fan air flow and sound performance shall be based on tests conducted in accordance with AMCA Standard 211 and 311 and shall be licensed to bear the AMCA Certified Ratings label

Code Approval

- Fan shall be tested and approved by UL and CSA (or equals) for safety

FKD Series shall be manufactured under the authority of Fantech, Inc., Lenexa, KS.
